

HIGH-DENSITY MTP CASSETTES

GIGAMEDIA's high-density MTP cassettes allow up to 144 fibres to be integrated into 1U. They are offered in 8, 12 or 24 fiber optic modularities, via LC duplex adapters on the front panel.

They are available in two versions:

- ▶ **SK7N series**, with 8 or 12 fibers, for GGM P12MTP144F platform
- ▶ **SK7M series**, with 16 or 24 fibers, for GGM P6MTP144F platform

Each series of cassettes is also available in a splicing version.

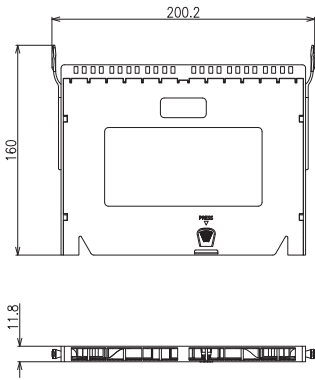

The SK7M series is also available in a pass-through version with MTP/MTP adapters.

FEATURES

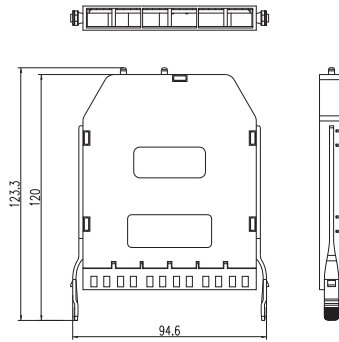

- ▶ Low-loss, multimode OM4 or single-mode OS2 cassettes
- ▶ Universal polarity U1
- ▶ Transparent plastic cassette with wiring diagram
- ▶ LC connectors on the front panel, ceramic sleeves
 - Multimode OM4: purple color, PC polishing
 - Single-mode OS2: blue color, UPC polishing
- ▶ MTP male adapters on the back of the cassette
 - Multimode: purple color, PC polishing
 - Single-mode: yellow color, APC 8° polishing
- ▶ Complies with ISO/IEC 11801, ANSI/TIA-568-C.3, FOCIS-5, FOCIS-10 standards
