GGM XPSTH

TEMPERATURE AND HUMIDITY SENSOR

Essential to reliably measure Temperature and humidity at the rack level and monitor operating conditions of IT equipments.

FEATURES

- Electrical data: 5 VDC 40 mA / 24 VDC 125 mA*
- Temperature measurement range: -40 °C to +85 °C
- Air relative humidity measurement range: 0 - 100 % ±2 % RH (no condensation)
- Up to 10 sensors can be connected in serie
- Delivered with 2 m cord
- Dimensions (L x W x H): 60 mm x 39 mm x 23 mm
- Rating: IP20

*The power consumption of a sensor is c.a 2.5 mA at a supply voltage of 5 V
